I recently came into the motherload of black kustom amps and was wondering if there would be any interest in doing some trading...I am looking to trade the following:

4 black 200 heads (2 bass, 2 pa--1 bass not working but repairable w/removed t&r)

1 3x15 cab

1 2x15 cab

1 4x10 150 combo

all pieces are black, fully functional, and t&r is in overall excellent condition (except where noted above).

I would like to find (all black please):

k250-4 head

k-100 heads and 2x12 cabs

150 (aluminum front) lead head

k-50 1x12 combo

\*\*\*I will trade all for the small pa with the 2x10 cabs!!!\*\*\*

any reasonable trade offers will be considered (maybe even an unreasonable one as well!)...what do you have?

440-686-0830

If you decide to sell, I would be interested in the 2-15" cabinet. - Philip Braud -- email me at braud357\_2@yahoo.com

Nice find, but I'm not sure you found the motherload. <http://www.kustomcollector.com/id32.html> will be the home of the motherloads.

I would be interested in the 3x15 cab  
do you ship?
