Hello.

I write from Italy.

I am a huge Kustom enthusiast since the early 90s, but only could find a (lovely) tuck'n'roll black Frankenstein head from the mid 60s, up to this moment! I adore it and use it daily!!!

Anyway...

I am looking for a K-200 head (with reverb and tremolo) and a matching 2x15 cabinet.

3x12 or 3x15 would be very nice too, but probably not too handy!

Both black, anyway.

Willing to pay what's due (I know shipping costs will be high).

Or I could have things shipped to a California address if within early to mid november (I'll be in California until about 20 november) and then try to bring them home when I come back in Italy!

That's my only chance to get a Kustom rig (I am trying to get one since YEARS, but as you can imagine, it's not easy if you live in Italy!!!)

Hope you can help!

Cheers!

ERIK
