---

I made these for my own cabinets and made Four additional sets.

Each is 13" long - 2 1/8" wide and 1/8" thick.

Sold in pairs only and of course the Casters are included and they are assembled. These will work on the K100 ~ K200 and the 150/250 cabs.

Sold in pairs only and will not be able to sell just the plates.

To much of a pain to do these - So I only have the FOUR sets

\$60 plus shipping to you.
