Hi, I just found your site, it's great!!! Back in the late 60's I bought a brand new Kustom bass guitar, in the early 80's I sold it (the kids needed to eat you know and the band broke up). Now the kids are gone and I would like to find another one. Anybody out there have any ideas?

Go to www.gbase.com and type in kustom bass in the gear search. I believe you will find 2 of them for sale. Good luck. Deb
