Hi i am new to the site, i grew up playing a kustom 200 amp and just found out that kustom made guitars as well.

and boy to I want one.

I have no idea the price range they go for or even if i can afford one.

i would be really grateful if someone could fill me in on average pricing, places to find them and anything i should be aware of while shopping for one.

i have herd them played and i definatly like what i hear the darker green ones make me drool.
