Located near Portland Oregon - NO SHIPPING. Over 100 pieces of vintage Kustom Tuck n Roll, including combo amps(k25s, k50s, k100s, k150s), piggy-backs (k100s and k200s), three organs, misc speaker cabinets, PA sytems, etc, etc. All colors and models represented. (but not every model in every color of course...) No junk. Buy one piece at a time or the entire collection - your choice.

Again - absolutely no shipping will be done. Local face to face sales only.

Considering that I live in the Milwaukee area, that's Wisconsin not Oregon, I know it's spelled differently, I still am looking for that elusive Red K100 piggy-back. J.B is unwilling to ship so if you would buy it from J.B., with my money and then ship it to me I might entertain that scenario. If he has a red K100, what would be his asking price? I remember this huge grouping on Ebay. No takers???

Why no shipping? Being in northern Alberta puts a damper onthe whole deal for me.

You can ship anything anywhere for the right price. It just is easier not to. Limits your potential customers. Maybe is not that eager to sell.

I'm in Portland a few times a year. Do you have any 150s for sale? Either way, I'd love to see what's for sale the next time I'm in town.

Good evening from Niceville, Florida. Interested in the 3 organs. Please advise of model, color, condition, both physical and playability, and price.

Closest airport is?

Thank you very much in advanced for a very complete answer to all. I look forward to hearing from you very soon. Nothing would thrill me more than to visit Portland and drive one or more of those home.

Respectfully--Tommy

Tommy, you got the wrong guy... I'm not the owner of all that Kustom gear. I just know where the air port is because I live in the Portland area.

I noticed that the guy has not posted anything new in almost a year now. And he only has one post it looks like which is this current tread...

hello all - this ad is almost a year old, and most of the amplifiers have been sold. I'm sorry I haven't updated the ad, but I assumed it had fallen of the site by now.

I do have two more organs I would sell: A blue k1495 and a red k1295.

tommywolfe: If you're genuinely interested in flying to Oregon and driving one back to Florida, while I might question your judgment in doing so, I will happily help you load it into your truck. I might even buy you a beer after the deal is done.

Condition: I'm a geek. I've studied over a dozen 'combo 1' organs up close and personal. The two I currently own are truly the best I've ever seen, both cosmetically and electronically. More of these exist than most people recognize, but they were definitely not created equal. I highly recommend to you - or anybody for that matter - never buy one without playing it first and checking under the hood.

Please feel free to send me a PM if you wish to discuss further.

Specific nutrients have been isolated and properly formulated so that they can penetrate deeply; preventing and repairing free radical damage. Coenzyme Q10 is one of wow power leveling those nutrients. warcraft gold Studies indicate that it can help you get rid of forehead wow power leveling lines in a matter of weeks.

But, the better manufacturers include both aion kina coenzyme Q10 and the protein keratin in their anti-aging creams. I have used creams containing those ingredients myself in order to get rid of forehead lines and I have been very pleased with the aion kinah results. I am sure that

In the same way that UV radiation causes increased free radical damage, so do cigarette smoke, air pollution and other environmental toxins. You can't aion power level always avoid air pollution, but you should be able to avoid smoky environments and if cheap aion power leveling you smoke, you should quit.
