Hey guys - I've also got a K150-2, black (the later "shiny" black) and it's in excellent condition; all original except the reverb tank, which is the correct replacement part. Also have a footswitch; it's correct for the amp but didn't come with it, so I'll sell it separately. Make me an offer, will e-mail pics if desired! Also have a pristine-condition Kustom-branded JBL D130F-6 if anyone needs one of those. Joe

Incidentally, the K150-2 and accompanying footswitch are of the stereo-plug, basic non-lighted type.

Is this the two button; 1/4 jack plug footswitch? Metal base? Post some pix? Thanks!

Got any idea as to what you might take for it?
