Vintage (early 1970's) Kustom Amp Stack 3x15 K200 B-4 Cascade Tuck and Roll in near mint condition. This is a legendary model amp like the one used by Fogerty in CCR.

This amp works perfectly and comes with original foot switches. The amp has Reverb, Tremolo with selective boost and harmonic clipper (fuzz) which are controlled by the foot switches.

Will not ship but will meet up to 25 miles from Deptford, NJ or somewhere on 95 between Deptford, NJ and Rosedale, MD. Will send additional pictures for serious inquiries.

Nice looking set up. The foot switches are not original to that amplifier. They would be the round style, not the flanged square, those are for the 250 series and other non tuck and roll Kustoms amps. The picture looks like the amp is blue.. but I know flash from the camera can do that, I have a few cascade Kustoms that took pictures that way. Good luck with your sell!

Sure does look nice, but is the top speaker a 15 " speaker or a horn type speaker?
