Hi everyone-

I realize it's kind of like trying to fill an inside straight, but I need a charcoal 200 cab and a blue 200 cab- also looking for a RED 200 head (case at least) or RED 300 head to go with my red 200A cabs

A guy on Craigslist in Illinois had two charcoal cabinets with speakers for sale last week. I know he has been trying to sell them as well as several other cabinets for several months. Might check that out.
