Asking \$2000

All RED Tuck n Roll  
These are the re-release (90's) products.

2 - 400W Kustom TRB400 Bass heads. Both have channel switching with 1 tube preamp and 1 solid state preamp. Both heads have Chorus, 7-band EQ, FX Loop and Line Out. Both heads have handles on one end for easy carrying. Only 1 of the two has feet on the opposite end.

2 - Kustom 4-10 bass cabinets with horn drivers.

1 - Kustom 2-15 cabinet.

2 - foot switches for chorus and channel switching.

High quality covers for everything.

All Naugahyde is in exceptional conditions. It has been loved and pampered.  
There is a little splitting near the casters on the cabinets that had occurred from original shipping carton before I received these.

All potentiometers could use a good spraying with contact cleaner. Have not used these in a few years.

All speakers are in MINT condition.

Local pickup only. Feel free to contact me: lee (at) leesteel (dot) com

Would not allow me to post a picture here. I will email it to you when you make contact.

So you must be the ad in Connecticut I've been seeing on Craigslist. I've been drooling over this for the past week or so... Wish I played bass (and was unmarried) or I'd buy that in a heartbeat!

HAHA! Yes you have located me.  
I really want to see this go to someone who will love it as much as I do.

I sold a TRT100 guitar head and 2 4x12 cabs to a guy in Wisconsin and he paid my local Pack N Send to crate it and ship it.  
Worked out perfectly for both of us. All I had to do was deliver it to the shipper and they did the rest.
