Hello!

Does someone have the owner's manual (it also includea the schematics as far as I know) for the kustom III lead head?

I need the 1979 version, it is the one with the silver front and bigger knobs.

Thanks a lot!

Thank you both!

I already found the ebay offer, thanks! I just wanted to know, if there's not someone who has the manual here in this forum, before I buy the item on ebay.

Thank you. I will then go ahead and buy it.

I would like to make a present to the forum or someone here.

I'd like to buy the manual on ebay and send it to one of you or another user. You or the user then would scan it for me and email or upload it. He/she can keep the original.
