Hi all , i have a 3-15 cab with a jensen, another unidentified, speaker and a metal 15" horn, anyone interested in them? I want to put in new replacement speakers, the jensen has a loose center, the other works, the horn, not sure, it has a crossover wired into it...my cell is 217 377 0517...thanks Bill B...

I sent you a personal message about the horn. You can e-mail me at [btketner@charter.net](mailto:btketner@charter.net) and let me know what you want for it.

Thanks,

Bart
