Hi! I am new to the site and I would like to know .. I have a kustom PA 300 from 1970 I think and it is green emerald color. I do not find much about its value! Does anyone have an idea of what it's worth? He is in perfect condition! Thank you!

There are three on eBay as having sold recently:

Given their condition and the prices they sold for, if yours is in great condition and fully-working, I'd say it's worth around \$200-\$300.

I don't think they came in what I'd call an Emerald Green. I'm assuming yours is more of a turquoise, aka "Cascade". Look at the Literature section on the left to see some examples.

There is a cascade K300 PA head at the Guitar Center in Baton Rouge now that I returned. They want \$250, which would be fine except the naugahyde is thrashed on the bottom (thus the return)

Hey Braud357, do you collect Kustom stuff? I go to school in NOLA, but I live in Denham Springs.
